

FARM MANAGEMENT SYSTEM

Milestone 1-Salesforce:

What Is Salesforce?

Salesforce is your customer success platform, designed to help you sell, service, market, analyze, and connect with your customers.

Salesforce has everything you need to run your business from anywhere. Using standard products and features, you can manage relationships with prospects and customers, collaborate and engage with employees and partners, and store your data securely in the cloud.

Activity1:

Creating a Salesforce Developer Org:

A Developer org has all the features and licenses you need to get started with Salesforce.

1. Search [Developer.salesforce.com/signup](https://developer.salesforce.com/signup)
2. Enter the following details like First name, last name, Email, Role, Company, Country/Region, Postal code, and Username must be unique.
3. Click sign me up, after a few min you will reserve a mail salesforce org and by using the verify account link you can create your new password.
4. Click save.
5. Search login.salesforce.com

6. By using username and password you can into the Salesforce org. The homepage will appear below

Milestone 2-Object:

What is an object?

Salesforce objects are database tables that permit you to store data that is specific to an organization. It consists of fields (columns) and records (rows).

In This Application We Use 4 Custom Objects:

1. Farm
2. Crop
3. Farmer
4. Buyer

Activity 1:

Create a custom object for Farm:

To create a custom object, follow these steps:

1. From setup click on object manager.
2. Click create, select custom object.

3. Fill in the label as " Farm ".
4. Fill in the plural label as " Farms".
5. Record name: Farm Name"
6. Select the data type as "Text".

The screenshot shows the Salesforce Setup interface for editing a custom object named 'Farm'. The browser address bar indicates the URL: `orgfarm.977c59090-dev-ed.develop.my.salesforce.com/lightning/setup/ObjectManager/011a00000FMGn/edit?address=%2F011a00000FMGn%2F%3FretL...`. The page title is 'Farm' under 'SETUP > OBJECT MANAGER'. A left sidebar lists navigation options: Details, Fields & Relationships, Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, and Related Lookup Filters. The main content area is titled 'Custom Object Definition Edit' and includes a 'Custom Object Information' section. This section contains the following fields and values:

- Label:** Farm (with a red 'Required' indicator)
- Plural Label:** Farms
- Starts with vowel sound:** ☐
- Object Name:** Farm (with a red 'Required' indicator)
- Description:** (empty text area)

Examples provided for 'Account' are shown next to the Label and Object Name fields. At the bottom of the page, the system status bar shows '39°C Mostly clear', a search bar, and system icons for language (ENG/IN), battery (91%), and time (20:33 27.09.2024).

7. In the Optional Features section, select Allow Reports and Track Field History.
8. In the Deployment Status section, ensure Deployed is selected.
9. In the Search Status section, select Allow Search.
10. In the Object Creation Options section, select Add Notes and Attachments related list to default page layout.
11. Leave everything else as is, and click Save.

Activity 2:

Creation of Crop object:

1. Click on the gear icon and then select Setup.
2. Click on the object manager tab just beside the home tab.
3. After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.
 - a. On the Custom Object Definition page, create the object as follows:
 - b. Label: Crop
 - c. Plural Label: Crops
 - d. Record Name: Crop Name
 - e. Select the data type as "Text".
 - f. Check the Allow Reports checkbox
 - g. Check the Allow Search checkbox
 - h. In the Object Creation Options section, select Add Notes and Attachments related list to default page layout
 - i. Click Save.

The screenshot shows the Salesforce Setup interface in a web browser. The browser tabs include 'Crop | Salesforce', 'SkillWallet', 'Developer Edition with Agent...', and 'Ask Gemini'. The address bar shows a URL from 'orgfarm-977cf59090-dev-ed.develop.my.salesforce-setup.com'. The page title is 'Developer Edition'. The navigation bar includes 'Setup', 'Home', and 'Object Manager'. The main content area is titled 'SETUP > OBJECT MANAGER' and 'Crop'. A left sidebar lists various setup options: Details, Fields & Relationships, Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, and Related Lookups. The 'Details' section is active, showing fields for Label (Crop), Plural Label (Crops), Starts with vowel sound (unchecked), Object Name (Crop), and Description. There are also checkboxes for 'Be careful when changing the name or label as it may affect existing integrations and merge templates.' and 'The Object Name is used when referencing the object via the API.'. At the bottom, there are settings for 'Context-Sensitive Help Setting' (Open the standard Salesforce.com Help & Training window) and 'Content Name' (None). The footer shows the system clock as 20:38 on 27-09-2026.

Activity 3:

Creation of Farmer object:

1. Click on the gear icon and then select Setup.
2. Click on the object manager tab just beside the home tab.
3. After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.
 - a. On the Custom Object Definition page, create the object as follows:
 - b. Label: Farmer

The screenshot shows the Salesforce Setup interface. The top navigation bar includes 'Setup', 'Home', and 'Object Manager'. The 'Object Manager' tab is selected, and the 'Farmer' object is being edited. The left sidebar lists various setup options: Details, Fields & Relationships, Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, and Related Lookup Filters. The main content area is titled 'Edit Custom Object: Farmer' and contains the 'Custom Object Definition Edit' form. The form includes the following fields:

- Label:** Farmer (with a red error message 'Required Information')
- Plural Label:** Farmers
- Starts with vowel sound:** ☐
- Object Name:** Farmer
- Description:** (empty text area)

The form also includes a 'Save' button and a 'Save & New' button. The bottom of the screen shows a Windows taskbar with the date and time '20:38 27-09-2026'.

- c. Plural Label: Farmers
- d. Record Name: Farmer Name e. Select the data type as "Text".
- f. Check the Allow Reports checkbox. g. Check the Allow Search checkbox.
- h. In the Object Creation Options section, select Add Notes and Attachments related list to default page layout. i. Click Save.

Activity 4:

Creation of Buyer object:

- 1. Click on the gear icon and then select Setup.
- 2. Click on the object manager tab just beside the home tab.
- 3. After the above steps, have a look on the extreme right you will find a Create Dropdown click on that and select Custom Object.
- a. On the Custom Object Definition page, create the object as follows:
- b. Label: Buyer
- c. Plural Label: Buyers
- d. Record Name: Buyer Name
- e. Select the data type as "Text".
- f. Check the Allow Reports checkbox. g. Check the Allow Search checkbox.
- h. In the Object Creation Options section, select Add Notes and Attachments related list to default page layout.
- i. Click Save.

Milestone 3

Tabs

Tabs in Salesforce help users view the information at a glance. It displays the data of objects and other web content in the application.

Activity 1:

Creation of Farm tab:

Now create a custom tab.

- 1. Click on the Home tab, enter Tabs in Quick Find and select Tabs.
- 2. Under custom object tabs, click New.
- 3. For Object, select Farm.

4. For Tab Style, select any icon.
5. Leave all defaults as is. Click Next, Next, and Save.

Activity 2:

Creation of Crop tab:

Now create a custom tab.

1. Click on Home tab, enter Tabs in Quick Find and select Tabs.
2. Under custom object tabs, click New.
3. For Object, select Crop.
4. For Tab Style, select any icon.
5. Leave all defaults as is. Click Next, Next, and Save.

Activity 3:

Creation of Farmer tab:

Now create a custom tab.

1. Click on the Home tab, enter Tabs in Quick Find and select Tabs.
2. Under custom object tabs, click New.
3. For Object, select Farmer.
4. For Tab Style, select any icon.
5. Leave all defaults as is. Click Next, Next, and Save.

Activity 4:

Creation of Buyer tab:

Now create a custom tab.

1. Click on Home tab, enter Tabs in Quick Find and select Tabs.
2. Under custom object tabs, click New.
3. For Object, select Buyer
4. For Tab Style, select any icon.
5. Leave all defaults as is. Click Next, Next, and Save.

Milestone 4 - Lightning App:

What is an App?

Apps in Salesforce are a group of tabs that help the application function by working together as a unit. It has a name, a logo, and a particular set of tabs. The simplest app usually has just two tabs.

Activity 1:

Create the Farm Management System app

- From Setup, enter App Manager in the Quick Find and select App Manager.
- Click New Lightning App. Farm Management System as the App Name, then click Next
- Under App Options, leave the default selections and click Next.
- Under Utility Items, leave as is and click Next.
- From Available Items, select Farm, Crop, Farmer, Buyer Reports, and Dashboards and move them to Selected Items. Click Next.
- From Available Profiles, select System Administrator and move it to Selected Profiles. Click Save & Finish.
- To verify your changes, click the App Launcher, type Farm Management System and select the Job Application app.

Note:

1. App Launcher-Displays available apps.
2. App Name-Displays the current selected app.

4. Navigation menu-Displays the tabs available inside the app.

Milestone 5 -

Fields and Relationship: What are fields?

Fields in Salesforce represent what the columns represent in relational databases. It can store data values which are required for a particular object in a record.

Activity 1:

Creation of fields for the Farm objects:

1. click the gear icon and select Setup. This launches Setup in a new tab.
2. Click the Object Manager tab next to Home.
3. Select Farm.
4. Select Fields & Relationships from the left navigation, and click New

1. Choose Data type as a picklist, Click next

1. Enter Field Label (Farm Type), and Enter Values as (Crop, Livestock, Mixed)
2. Next, Next Click Save.

Now let's create the other fields following Activity1 steps 1 to 4 and we must choose the data types of the fields carefully.

1. Next we Create another Picklist Field, Enter field label (Soil Quality) enter values (Organic, Cover Crops, Composting)
2. Again we Create Picklist field, Field Label (Irrigation type), Enter Values (Sprinkler irrigation, Drip irrigation, localized irrigation)
3. Choose data type as a text, enter field label (Location)
4. Choose data type as text, enter field label (size)
5. Create a Master Detail relationship with Farmer Object.

Activity 2:

Creation of fields for the Crop objects:

1. Choose Data type As a text, Enter Field Label name (Crop Name), Next save.
2. Select Data type as date, Enter Field label (Planting Date), then save.
3. Again we select data type as a date, Enter field label (Harvest date), save
4. Next We Create Lookup relationship on crop object related to Farm Object.

5. We select a data type as currency, Enter field Label (Actual Yield), Next Save it.
6. Select Data type as a Number, enter Field Label (Total Acres Harvested), Enter Maximum Length(20) and save.
7. Now We create Formula Field For That Select data Type As a Formula, Click Next.

8. Enter Field Label (Expected Yield per Acre), Select formula return type as Currency, click Next.
9. Enter a Formula Actual Yield Divide By Total Acre Harvested, then click next and save.

Activity 3:

Creation of fields for the Farmer objects:

1. Select Data type Phone, Enter field label (Contact Number), next Save.
2. Select Data type Picklist, Enter Field Label (State), Enter values (Telangana, Andhra Pradesh, Tamilnadu), save.
3. Choose Data type Picklist, Enter Field Label (District), Enter Values of district, next save.
4. Again select Data type as Picklist, Enter Field Label (Village), Enter Values of villages, next save.

The screenshot shows the Salesforce Developer Edition interface. The browser address bar displays the URL: `orgfarm-977cd59090-dev-ed.develop.my.salesforce-setup.com/lightning/setup/ObjectManager/01tj00000FMgHh/FieldsAndRelationships/new`. The page title is "Farmer". The left sidebar shows the "Setup" menu with "Object Manager" selected. The main content area displays the "New Custom Field" wizard for the "Farmer" object. The wizard is at "Step 2. Enter the details". The "Field Label" is "Contact Number". The "Length" is "10" and "Decimal Places" is "0". The "Field Name" is "ContactNumber". The "Description" is "Contact Number of the Farmer". The "Help Text" is "Contact Number of the Farmer". The "Previous", "Next", and "Cancel" buttons are visible at the top right of the wizard.

Creation of field dependency :

1. Now create Field Dependency For District field, Open Object Manager, Choose Farmer object, select Fields & Relationships, On Right side We have Field Dependency option, select that option.
2. Click new, Select Controlling Field as State, Dependent Field As District, Click on Continue.
3. Select the appropriate Value in each column by double-clicking them.
4. For Ex. Telangana - Yadadri Bhongir.
5. Click Include Values. And it is also the same for Andhra Pradesh, Tamilnadu with its cities.
6. Click Preview, then test the dependency by selecting a different State and viewing the associated Values available for Particular state.

7. Click Close to close the preview window, Click Save.

Activity 4:

Creation of fields for the Buyer objects:

1. Select Data type as a Phone, Enter a Field Label(Contact), Save.
2. Select Data type as an Email, Enter Field Label(Email), Next save.
3. Select Data type Text area, Enter Field Label(Address), Save it.
4. Select Data type Picklist, Field Label(Buyer Type), Enter values (Wholesale, Retail), Click Save.

Milestone 6- Profile:

What is a profile?

A profile is a group/collection of settings and permissions that define what a user can do in salesforce. A profile controls “Object permissions, Field permissions, User permissions,

Tab ,settings, App settings, Apex class access, Visualforce page access, Page layouts, Record Types, Login hours & Login IP ranges.

A profile can be assigned to many users, but user can be assigned single profile at a time.

Activity 1:

Create a custom profile:

1. From setup , enter profiles in Quick Find box
2. Select profiles (Standard user).
3. Click clone.
4. For Profile, enter Sales Department.
5. 5. Click save.

Activity 2:

Create a custom profile-2:

Create a profile with the profile name as “ Farm Manager” .

6. From setup , enter profiles in Quick Find box
7. Select profiles (Standard user).
8. Click clone.

Milestone 7- Role

In Salesforce, roles are used to determine which users have access to certain data and functions within the system. They are also used to define the reporting hierarchy within an organization. Users with higher roles have greater access to data and more control over the system.

Activity-1

Creation of role

1. From the Quick find box search for the role and click on the roles option
2. select the set up roles option

3. Below the CEO click on add role and enter the label name as a " Farm Manager " and role name will be Automatically populated and click on save.

Milestone 8-User :

What is a user?

A user is anyone who logs into Salesforce. Users are employees at your company, such as sales reps, managers, and IT specialists, who need access to the company's records. Every user in Salesforce has a user account. The user account identifies the user, and the user

account settings determine what features and records the user can access.

NOTE- As Salesforce license can only be used by 2 Users at a time in Dev Org, so If you don't find

salesforce license then deactivate a user who has salesforce license Or change the license type from Salesforce to any other.

Activity 1:

To Create a user:

1. From Setup, enter Users in the Quick Find box, then select Users.
2. Click New User.

Activity 2:

Create a Sharing Rule to Share the records of Buyer to Sales department with the Access of Read/Write.

Follow the steps from above Activity.

Milestone 9-Sharing Rules:

What are Sharing Rules?

Sharing rules help users to share records based on conditions. It is basically created for objects whose organization-wide defaults (OWD) are set to public read-only or private because sharing rules can only extend the access and not restrict it.

Types of sharing rules,

•Owner-based Sharing Rules •Criteria-based Sharing Rules

Activity 1:

Create a sharing rule

- 1) Goto Sharing Settings, which can be found under the Quick Find section.
- 2) Scroll down and find the candidate object where a sharing rule needs to be added, and then click on New to create a new sharing rule.
- 3) Add the label of the sharing rule you want to make.
- 4) Select your rule type based on the criteria.
- 5) Select the field can join immediately check field from the Crop object.
- 6) Select the Crop as equal and value is True.
- 7) And in selecting the users to share with the section select roles and in that select Farm Manager.
- 8) And in the section of select the level of access for the users give the access Read/Write.
- 9) And save the rule.

Activity 2:

Create a Sharing Rule to Share the records of Buyer to Sales department with the Access of Read/Write.

Follow the steps from above Activity.

Milestone-10: User Adoption

Activity 1: Create a Record(Farmer)

- Click on App Launcher on left side of screen.
- Search Farm Management & click on it.
- Click on Farmer Tab.
- Click new and fill details & Save.

The screenshot shows a web browser window with the URL `orgfarm-977cf59090-dev-ed.develop.lightning.force.com/lightning/o/Farmer__c/new?count=1&nooverride=1&useRecordTypeCheck=1&navigationLocation=LIST_V...`. The browser tabs include 'New Farmer | Salesforce', 'SkillWallet', 'Developer Edition with Agent...', and 'Ask Gemini'. The page displays the 'New Farmer' form, which is a modal window with a title bar and a close button. The form is titled 'New Farmer' and has a sub-header 'Information'. It contains several input fields: 'Farmer Name' (required, marked with an asterisk), 'Contact Number', 'State' (a dropdown menu with '--None--' selected), 'District' (a dropdown menu with '--None--' selected), and 'Village' (a dropdown menu with '--None--' selected). The 'Owner' field is pre-filled with 'Sujitha S'. At the bottom of the form, there are three buttons: 'Cancel', 'Save & New', and 'Save'. The background of the browser shows the Salesforce interface with a sidebar on the left containing 'Farm Management Sys' and 'Recently Viewed' items. The Windows taskbar at the bottom shows the date as 27-09-2025 and the time as 21:11.

Milestone 11-Reports:

What are Reports?

A report is a list of records that meet the criteria you define. It's displayed in rows and columns, and can be filtered, grouped, or displayed in a graphical chart. Every report is stored in a folder. Folders can be public, hidden, or shared, and can be set to read-only or read/write.

Activity 1:

Create a report:

Create a report that displays rating of the account and which has type and account name.

- 1) Click on app launcher search for reports.
- 2) Click on the new report and select the category has Farmer with Farms.

- 3) In the details section select the option start report.
- 4) In Outline Click on Column Select Which Field you want to display in the Report.
- 5) Click Group, Select Which Fields You Want to Group.
- 6) Save the report by giving label name(Farmer with Farms) and save the folder as a public folder and save the report.

The screenshot shows the Salesforce Reports interface. The top navigation bar includes the Salesforce logo, a search bar, and various utility icons. The main navigation menu on the left includes 'Reports', 'Dashboards', 'Forms', and 'Farms'. The 'Reports' section is active, displaying a list of recent reports. The table below shows the details of these reports.

Report Name	Description	Folder	Created By	Created On	Subscribed
Buyers		Public Reports	Sujitha S	9/26/2026, 9:47 AM	
Farmers with Farms		Public Reports	Sujitha S	9/26/2026, 9:02 AM	
Crops		Public Reports	Sujitha S	9/26/2026, 9:45 AM	

The interface also includes a sidebar on the left for navigating between different report categories (Recent, Created by Me, Private Reports, Public Reports, All Reports) and folders (All Folders, Created by Me, Shared with Me). The bottom of the screen shows the Windows taskbar with the date and time (21:12, 27-09-2026) and system status (30°C, Mostly clear).

Activity 2:

Create a Report using the Objects Crops, Buyers. Follow the steps from above Activity.

Milestone 12-Dashboard:

Dashboards provide more insights than reports as they combine the data from many reports and show a summarized result. Looking at many reports at a time gives the flexibility of combining the results from them quickly. Also summaries in dashboards help us decide on action plans quicker. The dashboards can contain charts, graphs and Tabular data.

Activity 1:

Create a Dashboard:

1. Click the Dashboard tab.
2. Click New Dashboard.
3. Name the dashboard Farmers with farms and click Create.
4. Click +Component.
5. Select the Farmers with Farms and click Select.
6. Select the Gauge chart and click Add.
7. Click Save and then Done.

Milestone-13: View Report and Dashboard:

Activity 1: Report

- Click on App Launcher on left side of screen.
- Search Farm Management System & click on it.
- Click on Reports Tab.
- Click on Farmers with Farms & see records

Activity 2: Dashboard

- Click on App Launcher on left side of screen.
- Search Farm Management system & click on it.
- Click on Dashboard Tab.
- Click Farmers With farms & see records.

4. Below the CEO click on add role and enter the label name as a " Farm Manager " and role name will be Automatically populated and click on save.

The screenshot displays the Salesforce Setup interface for the 'Roles' section. The left sidebar shows the navigation menu with 'Setup' selected, and 'Roles' highlighted under the 'Users' section. The main content area is titled 'Creating the Role Hierarchy' and includes a search bar and a 'Show in tree view' dropdown. The role hierarchy is shown as a tree structure starting with 'Government arts college chidambaram' at the top, followed by 'CEO' as a child role. Both roles have an 'Add Role' link next to them. The bottom of the screen shows the Windows taskbar with the date and time as 21:06 on 27-09-2026.
